Welcome to UPF Glass and Aluminium - your premier partner in the supply & installation of top-quality glass and aluminium products. We specialize in delivering innovative solutions for residential, commercial and industrial projects.

Glass Solutions

Ultimate Privacy Films PTY Ltd boasts an impressive range of glass solutions:

- > Walkways
- > Stairs
- > Windows
- > Skylights
- > Railings
- > Way more

*We **supply** and **install**.

Switchable Films

We are the **South African pioneers** for the supply and installation of remote-controlled (switchable) glass privacy films.

For more information on switchable films, we **humbly** invite you to **contact us** or visit our secure website at <https://www.glassprivacyfilms.co.za>

Glass Vinyl

We **supply** and **install** frosted & detailed glass vinyl of various shapes, patterns and colors on all glass, including vehicular and building windows.

Aluminium Solutions

How does **Aluminium** perform compared to other materials commonly used for doors and windows?

When compared with wooden frames, Aluminium frames are much **stronger** and does not swell or rot due to **humidity**. When compared to steel frames, Aluminium **weighs** a lot less and **does not rust**.

Aluminium frames handles the hot & humid climate of South Africa **really well** and generally **costs less** than wooden frames.

Other Services

3D Signage is extremely popular amongst successful businesses. They are both beautiful and practical, attracting attention 24/7.

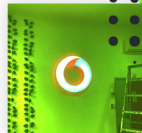

Neon Signage needs no introduction with its simultaneously modern and retro style. With professional installation this unique style can fit any industry and attract tons of eyes.

Tinted Signage is quickly gaining popularity in offices and businesses all over South Africa. Promote your brand, products and contacts or show patterns on your window professionally.

Smart Systems can be implemented residentially or in a professional setting. You've heard of Alexa, she is your virtual assistant and can be asked to do a variety of tasks, scheduling & more.

Flick-it Systems makes garage & access control a breeze. Flick your headlights once to open/close your gate, and twice to open/close your garage.
